

TerraSeeds Forex Tflow® Trading Course

Our course is suitable for both Novice and Professional Traders. The course is designed to bring you from the basics of Forex till Professional Forex Trading.

TerraSeeds Tflow® TFlow Course Module (total 7 modules)

Module 1: Discover Forex

- Forex Basics
- What currency to trade?
- Understanding pips, margin, spreads, rollover and interest rates
- Calculating profit & losses
- Multiple-timeframe Chart Reading
- Best time to trade

Module 2: Understanding and Managing Psychology

- Understanding your emotions
- Determine own trading style
- Building your trading business plan

Module 3: Forex Fundamental Analysis

- Important Fundamental News
- Trading News and Announcements

Module 4: Forex Pillars of Technical Analysis

- **Price Trend Analysis** – Trend determination in different timeframes
- **Price Reaction Analysis** – Candlestick Pattern in Forex Market, Chart Patterns
- **Price Level Analysis** – Fibonacci Retracement, Fibonacci Extension, Fibonacci Confluence, Pivot Lines
- **Price Momentum Analysis** – Strength of movement, Energy Divergence

TerraSeeds Tflow® Strategies incorporates Fibonacci Retracement and Fibonacci Extension to determine Fibonacci Confluence. Fibonacci is widely used in program trading by Banks, Hedge Funds and Professional Traders to PREDICT price movement.

Tflow® lets you know the target level AT THE SAME TIME you open a trade!

Module 5: Develop Trading Skills

- Mutiple Timeframe Chart Reading
- Risk Management
- Money Management
- Order Types and Placement

Proprietary River designed by Forex Trading Team especially for the Forex Market

Module 6: Forex Tflow® System Setup and Strategies

- ORIGINAL TerraSeeds Tflow® Analysis
- Forex Tflow® System Strategies (total 6 strategies for different market conditions!)

Module 7: Real time Hands on Class

- Analyse and trade real time while the price ticks. Learn how to place your orders, evaluate stop and profit levels live with our trainers

Program Highlights: 4 weeks of structured program, totaling 27 hours of Theories + Real Time Practical Hands-on Live Trading Sessions with Trainers

Mastery follows repetition. Our experiences in forex trading sculptured the way we want to teach our students. After 2 days of theories, you will have 3 sessions of real-time trading. Feel the vibes when important news move the market.

During hands-on, it will be a guided session:

- System set-up
- Order type familiarization
- Decision making process based on FX Tflow® System Strategies
- Money Management based on trading setup in real-time environment

There is a reason that Forex [Tflow®](#) System trading course was designed to incorporate **9 hours of hands-on over 3 weeks in the learning schedule**. So that you can learn our system, trade at home, come back to us to answer all your questions, analyze over again and then go back home to repeat the process

You will be trained by Instructors with years of professional Forex trading experience. They are traders too!
