

TerraSeeds Forex Tflow® Trading Course

Our course is suitable for both Novice and Professional Traders. The course is designed to bring you from the basics of Forex till Professional Forex Trading.

TFLOW® IS A PREDICTIVE AND LEADING METHOD THAT IS BASED ON APPLIED ELLIOTT WAVE AND ADVANCE FIBONACCI RATIOS.

Understand the foundation of Tflow® Concepts

(Why Tflow® Methods are used also by banks, investment funds and professional traders)

Fx Tflow® System applies TerraSeeds philosophy that there is always an underlying 'flow' in the market.

TerraSeeds **Forex TFlow® System** captures the flow of the market and gets you into the right side together with the big players. **Know the flow, ride the flow, win the flow!**

Why is Tflow® so important to forex?

Banks, large institutional, hedge funds and professional traders employ sophisticated fundamental analysis, complex technical trading systems and sentiments analysis to profit from the currency market. Through their actions, big players create *flow* or 'waves'

TFlow® Analysis is an analytical method that combines:

- **Fundamental Analysis**
- **Technical Analysis**
- **Sentiments Analysis**

It is probably the only method that tracks FA, TA and SA using the "River"!

Our proprietary setting of the RIVER is able to track activities of Forex players and put you in the right side of the market.

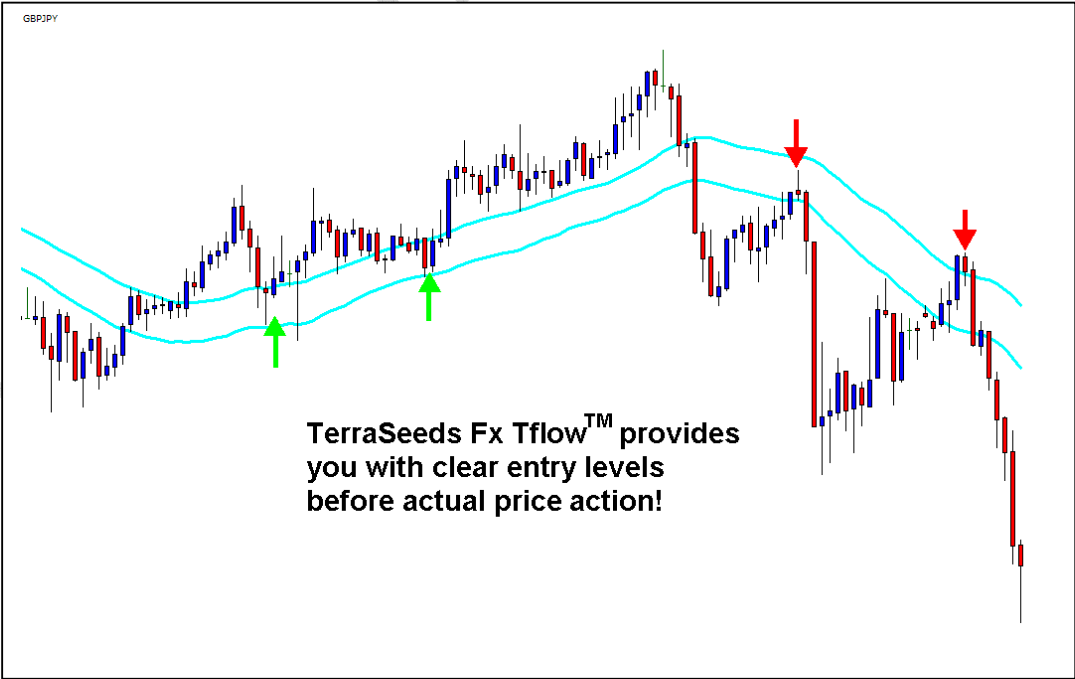

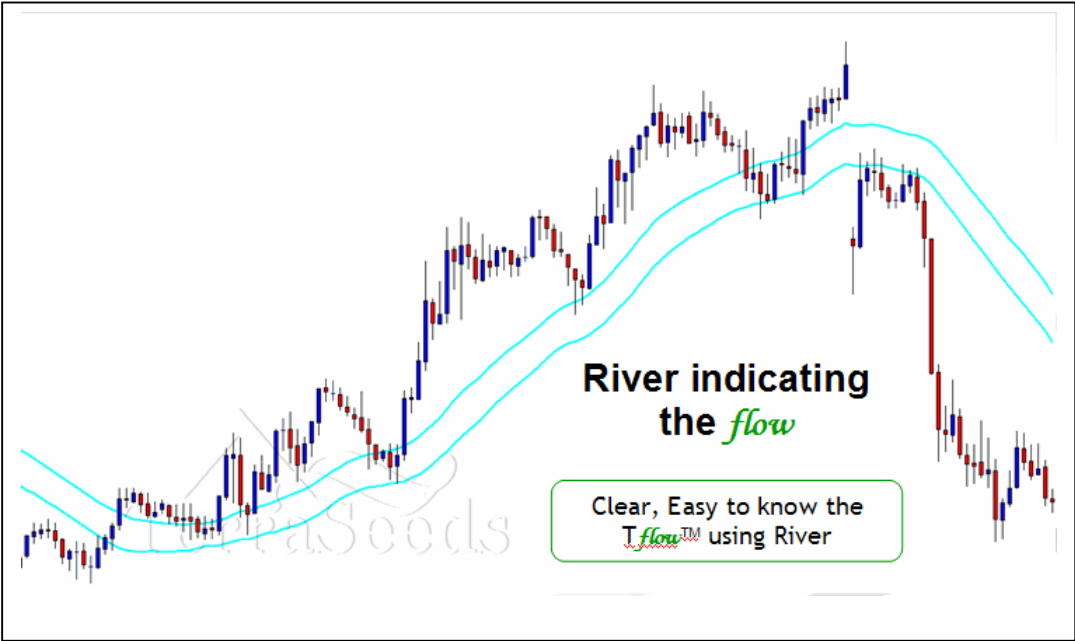

Go long when big players are buying.
Go short when big players are selling. **NEVER ON THE WRONG SIDE.**

Using TFlow® Analysis and Forex TFlow® System, we trade along the "flow" of the market. Once you know the flow, coupled with money management, you are on way to making your money work for you yet enjoying an aromatic cup of coffee!

Most importantly, it reveals consensus of the market and let us get into a 'calm' zone before an explosive trade happens. TerraSeeds Traders call it 'trading at the optimum zone'.

OPTIMUM ZONE is probably the reason why your direction is right and yet you are stopped out of the trade and make losses.

TerraSeeds Tflow® System is for EVERYONE
(Scalpers, Swing or Position Traders, Novice or Professionals, Students, Working Adults or Retirees)

Get thrilled with why you are able to scalp like a pro, swing trade while concentrating on your career or simply invest by forming your currencies basket.

- Why Fx Tflow® System can provide clear luxury to what to do: long or short
- Why you are able to place your trades before price action and EWUS (Earn.While.U.Sleep)
- How you can play critical news announcement with Tflow® Analysis by knowing the 'flow' of the market

Why is Terraseeds Tflow® system the smart way to trade Forex

1. High Reward to Risk Ratio

(Our maximum score is about Reward to Risk of 10 to 1; our average Reward to Risk Ratio is 3.5 to 1)

2. Auto levels for Profit and Stop Loss

(We will know our profit target and stop loss AT THE SAME TIME when we open a trade!)

3. Tflow® Method is a professional trading method used by banks, hedge funds and professional traders

(Our secret to high reward to risk ratio is our fast trigger)

4. Tflow® Method is for every person, intraday, swing or position trader and can be used for Stocks, Futures and Commodities

(You do NOT need to watch the screen whole day!)

5. Our commitment to assist you to succeed lies in the Real-time Hands on Trading Session

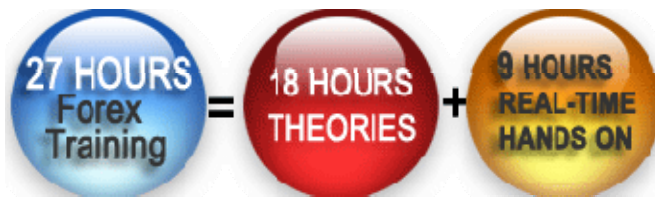

(All our Hands-on sessions for training are practical oriented and conducted LIVE!)

TerraSeeds Tflow® Trading Course Training Methods

(As Educators for both Corporate and Retail Clients, our many years of experiences tell us the way to train Traders is via Real time Practical Hands on)

LIVE HANDS ON **The only way to learn trading**

Mastery follows repetition. Our experiences in forex trading sculptured the way we want to teach our students. After 2 days of theories, you will have 3 sessions of real-time trading. Feel the vibes when important news move the market.

During Real time Live Hands-on, it will be a guided session:

- System set-up
- Order type familiarization
- Decision making process based on Forex Tflow® System Strategies
- Money Management based on trading setup in real-time environment

There is a reason that Forex Tflow® System trading course was designed to incorporate **9 hours of hands-on over 3 weeks in the learning schedule**. So that you can learn our system, trade at home, come back to us to answer all your questions, analyze over again and then go back home to repeat the process

AFTERSALES **What happen after you have completed our training program?**

We will support you with routine real-time trading sessions (bi-monthly) and free online support group (answered by professional trainers of TerraSeeds)
